

THE TROJAN CAMPAIGN

THE ATHLETICS FACILITIES IMPROVEMENT COMMITTEE

The Essex High School community has been working diligently since January 2019 to improve the existing facilities and make them safe, practical, attractive, accessible and community friendly. We have been able to fund the purchase and installation of new lights for the football/soccer field, new restrooms and a concession stand, track, fencing, new bleachers and press box, tennis courts, and practice fields thanks to grants secured through school board administration and Dr. Harry R. Thomas III. Sports have the power to teach important life skills such as patience, self-confidence, humility, accountability, discipline, pride and teamwork. Now, we need your help to continue this project and make our vision a reality.

We are a nonprofit organization under Section 501 (c) (3) of the Internal Revenue Code, so any donation you make is tax deductible. We would be immensely grateful for your donation and support.

Thank you for assisting us in this endeavor.
