#### Connecting the Tablet to the projector

- press menu button
- use the down arrow to select EZ Display
- Click enter to go to EZ Display submenu
- Use down arrow to select EZ LAN
- Press Enter to get Lan info screen
- Copy IP Address Number
- On Tablet click EZview icon
- Enter IP Address into box and click start
- Tablet should now be wireless to projector

# Tablet Connection Visual Steps

Menu - first Screen - use down arrow to select EZ Display, press enter

Menu Second Screen - Use down arrow to select EZ LAN, press enter

Lan Info Screen (3rd screen) - Copy IP address

On Tablet select EZ View and enter IP

Once you remember your IP address you can skip to step 4 and just enter the IP address on you tablet's EZView software. The IP address is unique to each classroom.
