Rising 4th Graders
Reading Response
Summer 2016

4th Grade SOLs: At the fourth-grade level, students will build on their reading and reading comprehension skills. They will continue to develop fluency as they use strategies such as word analysis, use of context clues, and the making of inferences to gain meaning from text. Students will use reading strategies before, during, and after reading to develop and demonstrate comprehension. The use of graphic organizers will facilitate students' understanding of text organization and will help them summarize and draw conclusions from fiction and nonfiction text. Students will read widely from content-area and nonfiction texts. They will also collect information from a variety of resources in order to acquire additional knowledge about a topic. They will construct questions about their topic, gather information, and synthesize the information for use in their oral presentations and writings.

Summer Goal: 1) Read at least three books. Feel free to choose any book which interests you. Try to challenge yourself a little and maybe enjoy a visit to the public library!

2) Write about the books you read on the attached forms. Give this to your Language Arts/English teacher when you return in September. You will receive points on your first quarter grade for quality work. Do your best!

Use the response questions listed below to guide what you write about your book(s). Select at least three different questions, but feel free to do more!
