

REPORTING OF HAZARDS

Any employee who discovers a dangerous condition should report the condition immediately to his or her supervisor, the superintendent, or his/her designee.

The superintendent shall name a designee to evaluate and label toxicity of all art materials used in the division in accordance with criteria established by the Virginia Department of Education. All materials which meet the criteria as toxic shall be so labeled. Such materials will not be used in kindergarten through grade 5.

Adopted: April 9, 2012
